DIVA DHILA JASMINE

Bandung, Jawa Barat, Indonesia • diva.dhilaj@gmail.com • +62 85314425780

Telecommunication Engineering graduate with hands-on experience in web development and digital product development. Skilled in designing and building user interfaces using HTML, CSS, and JavaScript. Passionate about creating seamless digital experiences, problem-solving, and continuously learning new technologies.

EXPERIENCE

TELKOM CORPORATE UNIVERSITY CENTER   **Bandung, Jawa Barat, Indonesia**
Research Assistant Intern   **2023**

- Support the research team in locating and analyzing materials relevant to the research project.
- Assist in preparing project research reports, including data processing and interpretation of results.
- Attend meetings with project clients, record key points, and provide feedback to the team to ensure smooth communication.
- Contribute to team discussions to develop more effective research strategies.

PROJECT

Capstone Project: Sensor-Based Push-up and Sit-up Counter System (iRepCount-A)   **2023-2024**

- Developed a real-time web interface using HTML, CSS, and JavaScript.
- Designed a clean, user-friendly UI/UX to enhance usability.
- Worked in a three-member team, collaborating on integration with the server and movement detection.
- Conducted usability testing to improve system performance.
- Intellectual Property (HKI) Registration Number: 000669925

EDUCATION

UNIVERSITAS TELKOM   **Bandung, Indonesia**
Bachelor of Telecommunication Engineering   **2020-2024**
GPA 3.56

- Specialized in web programming and sensor-based systems.
- Thesis: Development of a Sensor-Based Push-up and Sit-up Counter System with a Web Interface.

COURSES AND CERTIFICATIONS

- **Getting Started with Deep Learning** – NVIDIA DLI
- **JavaScript Essentials 1** – CISCO Networking Academy
- **JavaScript Essentials 2** – CISCO Networking Academy
- **TOEFL ITP** – Score: 597
- **IELTS** – Overall Band Score: 7

SKILLS

Technical Skills

- Frontend Development: HTML, CSS, JavaScript, React.js
- UI/UX Design: Wireframing, Responsive Design, Usability Testing
- Digital Product Development: User Research, Agile Development, Product Analysis
- Tools: Figma, GitHub, VS Code

Soft Skills

- Problem-Solving: Debugging & troubleshooting web applications.
- Analytical Thinking: Data processing & interpretation.
- Collaboration: Experience working in cross-functional teams.
- Communication: Writing reports, presenting ideas, and documenting work effectively.

Languages

- Bahasa Indonesia: Native
- English: Advanced (C1 CEFR)
